Avisos

Aviso	Las compras de cada cliente se separan por ROLLOS y METRAJE y respetan el filtro de modalidad en el servidor.
Aviso	Los filtros de producto, tela, color, unidad y proveedor seleccionan tickets que contienen al menos una línea coincidente. Ventas y utilidad aplican además el corte de modalidad a sus líneas; los pagos de tickets mixtos se asignan proporcionalmente por subtotal de línea. El crédito conserva el ticket completo para no alterar su semántica financiera.
Aviso	Las cuentas por cobrar son una foto global de la proyección autorizada y no cambian por periodo, ubicación, producto o modalidad; únicamente respetan una selección explícita de clientes.
